

FEATURES OF THE ALL NEW *BRUSHBEAST*[™] DR

THE FUTURE OF THE AIR DUCT CLEANING INDUSTRY HAS ARRIVED.

The *BRUSHBEAST DR* features an advanced direct, duct airpath design which provides a short distance directly to the vacuum chamber to help increase vacuum power. When compared to other Rotobrush equipment, the *BRUSHBEAST DR* offers more vacuum power while maintaining the portability known with Rotobrush products. The *BRUSHBEAST DR* features a removable pod and is paired with the SpeedTray Carrier to allow for easy access to brushes, vacuum accessories, fogger, and more.

THIS POWERFUL
SYSTEM IS EVERYTHING
YOU NEED TO START
PROVIDING AIR DUCT
CLEANING SERVICES TO
YOUR CUSTOMERS.

DR SMART TECHNOLOGY

Equipped with patent pending smart technology, the BrushBeast DR features an all new direct drive system. With no more pulleys to worry about, this smart technology will reduce tension and extra wear on drive cables. The DR also has 4 speed rotation settings to choose from- 250 RPM, 325 RPM, 400 RPM, or 500 RPM.

POWERFUL VACUUM MOTORS

The newly designed BrushBeast DR produces 20% more vacuum power when compared to the original BrushBeast. It has 105% more vacuum power when compared to the Rotobrush aiR+.

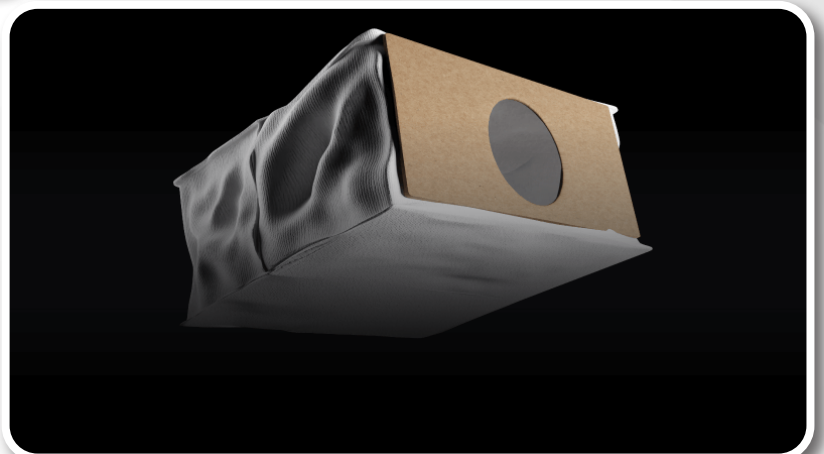

SAVE ENERGY

Upgraded to include direct drive motors, the BrushBeast DR uses less energy but produces more power. When compared to the original BrushBeast, this new drive system uses 80% less power using only 12 AMPS on first circuit and 11 AMPS on second.

ADVANCED FILTER BAG DESIGN

The BrushBeast DR features an upgraded filter bag, breathable design which allows you to hold more debris without losing any vacuum power.

SPEEDTRAY CARRIER

When functionality meets portability. Like the original BrushBeast, the DR is also paired with the SpeedTray Carrier. The magnets on the front of the carrier allow you to easily attach your brushes and built in holders house your vacuum accessories, drill, and fogger. Easily carry everything you need.

ADDITIONAL HOSE

When you add more power, you get more opportunity. With the additional power that the BrushBeast DR offers you can extend the standard 35' hose to 52' with the 17' hose extension.

LARGE REAR WHEELS

The BrushBeast DR is equipped with large 12" back wheels. These nylon enforced wheels are durable and allow you to easily navigate some of the toughest surfaces.

DURABLE BODY

Constructed of thick, high quality polypropylene, the DR pod and SpeedTray Carrier are built with superior strength and greater durability.
